Front cover: A place built for the future that fully honors the land and people of its past, ISTB7 embodies the entire philosophy behind the Julie Ann Wrigley Global Futures Laboratory — a building constructed to have an extremely low impact on the environment and dedicated to discovery and solutions development. Every level of this new structure features laboratories, classrooms, and meeting and recreation spaces that equip and inspire the students, faculty, staff and guests of the Global Futures Laboratory to address and explore the critical issues related to the future of our planet.

Mara L. crosses the stage during ASU's 2021 graduate commencement. Around 3,000 students were recognized for their master's and doctoral accomplishments.

01.

Experience world-class academics

You're about to embark on a transformative journey at Arizona State University that will shape your future.

You'll be part of an academically excellent community where your ideas drive your college experience.

Through academic instruction led by some of the world's top professors, you'll master the art of learning while being part of the university's most significant and meaningful endeavors.

Ultimately, you'll graduate with the tools and mindset you need to **make your life one amazing story.**

Old Main was constructed long before Arizona became a state. Later, it was the site of a speech by U.S. President Theodore Roosevelt, who said, "It is of the utmost consequence in any community ... to provide the best educational facilities for the next generation." More than a century later, **Old Main affirms that our commitment to the future lies deep in ASU history.**

As the nation's most innovative university, ASU is pushing higher education boundaries

A new partnership between ASU and Dreamscape Immersive is turning students into explorers through virtual-reality-based experiences, enabling them to learn and discover in ways never before imagined. This education gamechanger combines the emotional power of Hollywood storytelling with a fully immersive VR experience where students can learn and explore by becoming fully embedded in a virtual environment.

Why Dreamscape Learn?

Research shows that students learn more when they actively explore concepts in the context of real-world problems. Dreamscape Learn engages students and teaches them in an entirely new way — by enabling them to become part of the story. The highly engrossing VR curriculum creates a focused environment that can dramatically improve how much students learn and retain.

ASU students becoming a creative workforce of the future using Dreamscape Learn

Students from a range of academic backgrounds are coming together using Dreamscape Learn to create a time-traveling VR experience that addresses the complexities of climate change in the "Designing for Dreamscape" course.

"You're not just learning the material, **you're part of the material, part of the story, part of the exploration.**"

Alysha H.
Senior research assistant

"**I felt like a true scientist** when I was in there."

Study with some of the world's most brilliant minds

ASU students learn alongside professors and researchers across the university as they explore innovative ideas and make groundbreaking discoveries. These gamechangers and academic mentors include Nobel laureates and other leaders in their fields, providing you access to some of the brightest minds in academia.

ASU Regents Professor **Lindy Elkins-Tanton**, who is leading a NASA deep-space mission, is also guiding her students to discover they have the ability and support to reach their potential.

With the mentorship and encouragement of Professor Elkins-Tanton, ASU student **Jessica M.** landed an internship at NASA, where she worked on a Mars rover.

ASU's faculty includes:

Nobel laureates
Pulitzer Prize winners
Guggenheim Fellows
American Academy of Arts and Sciences members
National Academy of Sciences members
National Academy of Engineering members
MacArthur Fellows
Fulbright U.S. Scholars
National Endowment for the Humanities Fellows

Recent ASU graduates have earned:

Fulbright Scholarship
Rhodes Scholarship
Churchill Scholarship
Gates Cambridge Scholarship
Goldwater Scholarship
Marshall Scholarship
Truman Scholarship

Former president of the Academy now heads film school

Cheryl Boone Isaacs, the former president of the Academy of Motion Picture Arts and Sciences, is the founding director of ASU's Sidney Poitier New American Film School.

National Geographic editor-in-chief joins ASU

Former National Geographic editor-in-chief Susan Goldberg has become part of ASU's journalism school and Global Futures Lab, and is expanding ASU's presence in Washington, D.C.

ASU professor leads the National Endowment for the Arts

Herberger Institute for Design and the Arts Professor Maria Rosario Jackson is the first African American and Mexican American to head the NEA.

Pulitzer Prize winner joins ASU

2021 Pulitzer Prize winner in Feature Writing, Mitchell Jackson, became an ASU professor and is also Esquire magazine's first Black columnist.

Work on innovative projects that are driving the future

At ASU, we are committed to research that uncovers real benefits for our society. Here you can work on one of 400+ research projects that have an impact and make a difference. And you'll be doing it alongside some of the brightest and most innovative professors, who are there to guide you on a journey of next-level learning.

Top 10 in the U.S. for patents because of our rapid, entrepreneurial approach to solving global challenges.

Along with MIT, Stanford and Harvard
— U.S. National Academy of Inventors and the Intellectual Property Owners Association, 2021

ASU students win \$1M XPRIZE to fight COVID-19

A team of students in ASU's Luminosity Lab beat out more than 1,000 worldwide entries to be named the winner of the XPRIZE competition for their design of a functional, comfortable mask to prevent the spread of COVID-19. They'll take a share of a \$1 million prize, and be connected to industry partners to get the mask manufactured and to market.

The mask they created uses a divided chamber design so air exhaled from the nose is kept in a separate chamber from the face and mouth. This means the air you breathe in is fresher, your face stays cooler and your glasses don't get fogged up.

ASU student innovators win national competition

With the support of ASU's Luminosity Lab, two first-year ASU students are now representing the U.S. on the world stage after beating out 182 other teams of student innovators with their idea for a revolutionary note-taking tool.

A leader in the semiconductor revolution

Students are becoming prepared for the critical semiconductor industry, while ASU is helping to add more jobs and strengthen the economy by providing research, education, innovation and talent for the industry.

Untangling the origins of Alzheimer's

An ASU professor is making advancements in Alzheimer's disease research with new technology that looks at its origins at the molecular level.

Professor's groundbreaking research cleans the air

A carbon capture system based on an ASU professor's innovative research is being funded by the Department of Energy. The carbon trees catch and store carbon from the air at a rate 1,000 times that of an actual tree.

Learn to think creatively

Solving challenges in the world — or in your day-to-day life — calls for creative solutions to complex problems. Taking a class or majoring in programs such as art, design, digital culture, music, dance, film or theatre can help you hone your creative-thinking and problem-solving skills so you're better prepared for taking on challenges, big and small.

Jessica T. helped design and build a play structure called Pause + Play for schoolchildren. She and fellow interior architecture students collaborated with 70 sixth-graders to learn what kids want in a play experience, and then brought it to life.

02.

Customize your college journey

Your experience at ASU will be unlike anyone else's. You'll have access to opportunities and tools to design your college journey to your exact specifications. From where you live to what you study to what you do during your downtime, **you'll be in charge of it all.**

ASU treats students as design partners, giving them the tools to contribute to and even lead some of ASU's most important discoveries and projects. A prime example is the Student Pavilion — students helped design the building and now manage and operate it. **The Student Pavilion embodies the idea that students are central to the strength and success of ASU.**

Student organizations headquartered at the Student Pavilion:

- Alliance of Indigenous People
- Asian/Asian Pacific American Student Coalition
- Black African Coalition
- Coalition of International Students
- El Concilio (Chicanx, Hispanic, Latinx) Coalition
- Rainbow (LGBTQIA) Coalition
- Undergraduate Student Government, Tempe campus
- Women's Coalition

Learn your way

At ASU, you can customize how you learn, what you learn and the speed at which you learn. See all the ways you can make your academic experience uniquely your own.

Dual majors

You can earn two concurrent degrees in the same time it takes to earn one, expanding your knowledge and career options.

Accelerated bachelor's and master's degrees

You can opt to fast-track your studies by choosing either a 2.5- or 3-year path after admission into an accelerated program. Depending on your program, you can earn your bachelor's and master's degrees one year earlier by working toward both at the same time with a 3+1 or 4+1 program.

Minors and certificates

By adding a minor or certificate, you'll become more well-rounded and boost your resume by taking classes outside your major.

Semester lengths

Choose a traditional 15-week semester or a more concentrated 7.5-week semester. Either way, the course content and credit you earn is the same.

Technology-enhanced learning

Active learning. Listen to class lectures online, then go to class to work on problem-solving in small groups.

Adaptive learning. An interactive style of learning that adjusts to your skill level in real time.

ASU online learning. Pursue your degree from anywhere as a full-time online student, or add an online course to your schedule in addition to your on-campus classes.

Me3® major and career quiz. Not sure which major to choose? Start by taking the me3® quiz to see how your interests match with ASU degrees and career paths. Then design the future you want by charting an academic pathway to a degree program that leads to a successful career.

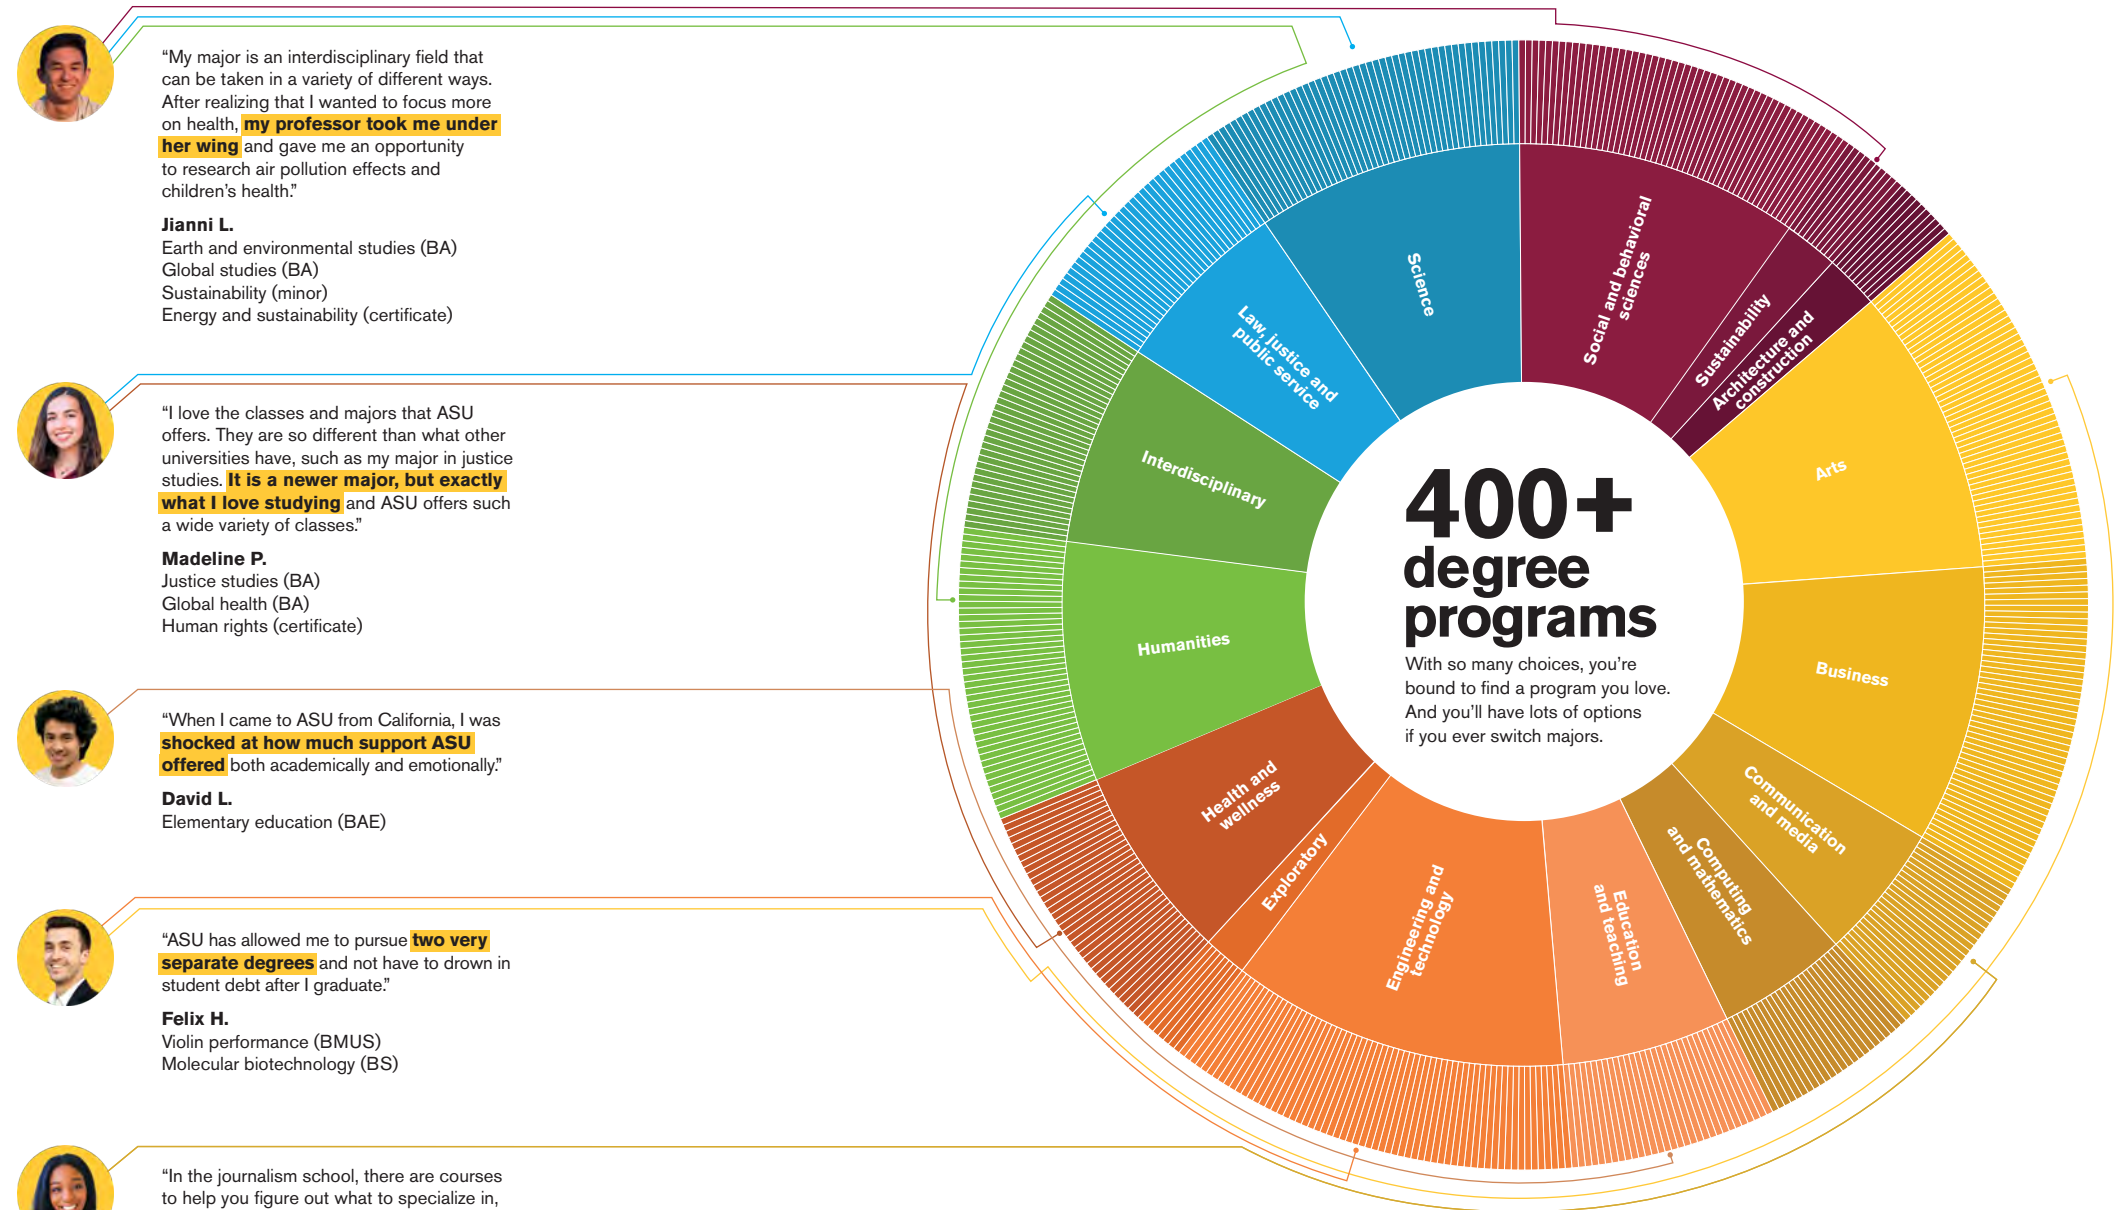

asu.edu/me3

Universal Learner Courses. Take first-year ASU college courses online while you're still in high school or before you enroll at ASU, and pay for credit only if you're happy with the grade. The course credit will count toward your ASU degree.

Become more than your major

Meet five students who let their interests drive their college journeys. Erin, Daniell, Phillip, Nolan and Obafemi didn't know where their ASU experiences would take them, so they followed their own paths, took advantage of opportunities that interested them and created their own outcomes.

That's the ASU experience — you decide what you want it to be, and we help shape it to fit you. To start thinking about the kind of college student you'll become, take our quiz at asu.edu/my-experience.

Strengthen your academics with tutoring, mentoring and support

To thrive in college, you have to surround yourself with people who are committed to your success. ASU offers support services and resources designed to assist you throughout your experience at ASU.

Paula Guzman, an academic advisor from the Mary Lou Fulton Teachers College on the West campus, meets with a student to make sure they are taking the right classes to graduate on time.

Top 10 in the U.S. for first-year experiences

Ahead of Princeton, Harvard and Notre Dame
— U.S. News & World Report, 2022

Mentorship

You can find mentors through ASU's mentor network, or sometimes by working closely with a professor on a research project or hanging out in their office during faculty office hours.

Tutoring

ASU offers free tutoring and writing help so you can catch up or get ahead in your classes.

Academic advising

Your academic advisor helps ensure you're taking the right classes and are on the most efficient path to graduation.

eAdvisor™

Monitor your progress toward your degree with this online tool. You can see what classes you need to take and which semester to take them, and receive an alert if you fall off track.

Faculty office hours

All professors hold weekly office hours. This is your chance to talk to them about a concept you're struggling with in class, or to have a chat and build your network.

First-year success coaching

Get support in your transition to college life by connecting with a peer mentor who can offer tips and advice as you settle in to your first year.

ASU mobile app

Access your grades, schedule and financial aid information, and find ASU events, maps, library resources and more, all on your phone.

Health and wellness

ASU offers wellness resources such as the Sun Devil Fitness Complex, a huge gym with all the latest equipment. You'll also have access to comprehensive health care — including primary care, immunizations, lab services, acupuncture and women's health — and specialized LGBTQIA programs and initiatives.

Counseling 24/7/365

ASU students can receive free, unlimited counseling services day or night from anywhere in the world.

Family support

Your family is part of your college journey, too. ASU offers resources and information to keep them connected to the ASU community.

Immerse yourself in a community that lets you be you

Life in an ASU residence hall isn't dorm life, it's community life. You'll live on the same floor as other students in your academic program in a residential college, and immediately be part of a welcoming community committed to inclusion.

Residence halls include:

- A comfortable, completely furnished room.
- Utilities, cable and Wi-Fi.
- Full community kitchen.
- Group recreation space.
- Quiet study areas.
- Washers and dryers.

Why live on campus?

Living on campus means you're right next to everything: classes, professors, libraries, tutoring centers, dining halls, the fitness complex. You'll have access to a 24/7 community of support and feel more connected to university resources.

Eating well on campus

No matter what kind of food you're looking for — vegetarian, vegan, comfort food — you can find it at ASU. Dining halls offer delicious entrees, several meal plan options, convenient hours, access to nutritionists, and lots of space to hang out with friends or get some studying done while you eat.

Live a life of impact

ASU is making a positive impact across the globe, helping to solve challenging problems and making the world a better place. As a student, you'll be part of it. And while you're leaving your mark, **ASU will be preparing you for a bright future.**

The university community is guided by the ASU charter principles: "ASU is a comprehensive public research university, measured not by whom it excludes, but by whom it includes and how they succeed; advancing research and discovery of public value; and assuming fundamental responsibility for the economic, social, cultural and overall health of the communities it serves." **These tenets are the foundation of what attracts students from around the world.**

Make yourself proud by making your mark

Right now, it might be difficult to picture yourself walking across the stage and receiving your college diploma. We want you to remember that no matter who you are or where you're from, you won't go it alone at ASU. The university community is committed to supporting you every step of the way during your college years. This is why the ASU charter states that we measure ourselves by whom we include and how they succeed.

“Education is an ongoing process.

It doesn't really stop with school!”

Majerle L.

Political science (BS), philosophy (minor)

“The highlight of my ASU experience was my honors thesis. It was a fun project — predicting sneaker resale prices using machine learning. **It was really fun to combine a couple of my passions into one project!**”

Shail S.

Computer science

“Education is a way for us to further ourselves and our future, to get **a career that we love and build a future that we love!**”

Diana P.

Marketing and Spanish dual major

Excel in your profession

When the job you'll have in the future may not even exist yet, how do you prepare for it? ASU Career and Professional Development Services offers tools, resources and guidance to help you get ready. You'll have access to ASU's robust network of industry partners and internship opportunities. And the innovative career platform Handshake enables you to connect with employers, get information on upcoming career events, research companies and share your resume.

Live a fulfilling life

The things you'll learn, the community you'll build and the opportunities you'll explore at ASU will set you up for success not only in your career but in your life. Our goal is to prepare you to thrive in all aspects of your life, from your health to job satisfaction to community ties.

Happy. Successful. Fulfilled. Living the life they desire — that's what we want for each member of our student and alumni family.

Isaac E. came to ASU shy and not knowing what he was going to study. But he fell in love with his college and made lots of friends. When Isaac graduated, he realized ASU gave him more than an education. **"ASU really gave me confidence that I can do anything."** Isaac earned his degree in broadcast journalism and now works for the Phoenix Suns and Phoenix Mercury as a content producer.

Jesse S. is a recreational fisherman with a PhD in biology from ASU. Now, as an assistant professor in the College of Global Futures, **he's changing the future of commercial fishing across the globe.** Jesse and his students have developed an affordable solar-powered net that effectively saves protected sea life without compromising the profitability of fishing for communities that depend on the industry.

Ranna A. credits ASU with helping her learn how to explore interests outside of her comfort zone and in pursuit of a fulfilling life. After earning her degree in molecular biosciences and biotechnology, she started her career as a pharmacist and recently joined a startup fighting the opioid epidemic, an issue she is passionate about combating. Ranna finds balance by also pursuing the things that bring her joy, including yoga, healthy eating, and quality time spent with family and friends.

When we say our students are co-creators in their education journey at ASU, we mean it. Every student photo in this book depicts actual ASU students or alumni participating in real ASU experiences. It's our goal to always tell a genuine, student-focused story about our university. We're proud of and grateful for the many students who shared their unique stories in this book, including:

Students with the Programming and Activities Board on the Polytechnic campus pass by **San Tan Hall** on their way to a club meeting. The Polytechnic campus sits in a scenic desert landscape and offers students plenty of social spaces and a hands-on learning environment, including advanced labs with access to specialized tools, a crystal-clear lap pool and gym packed with the latest equipment, and a brand new residence hall with all the comforts and amenities.

Explore your ideas here.

If you're starting to picture yourself at ASU, we're here to help you with the next step. Take an Experience ASU tour, where one of our students will show you around and answer all your questions, whether you visit in person or virtually.

We can't wait for you to join us and to see what you'll do at ASU.
