The New American University Arizona State University

- 01. Experience world-class academics 4
- 02. Customize your college journey 18
- 03. Live a life of impact 38

Front cover: Art students Melina T., Connor L. and Katie D. celebrate earning their diplomas and starting the next chapter of their lives at ASU undergraduate commencement.

New students take part in Sun Devil Welcome, one of dozens of Fall Welcome events that get them ready to begin their college journey. Sun Devil Welcome is a high-energy celebration featuring ASU's president, ASU Athletics, the marching band, Sparky and more, where students experience the spirit, pride and tradition of being a Sun Devil. They also compete in a friendly competition to see which college is the most spirited.

01.

Experience world-class academics

You're about to embark on a transformative journey at Arizona State University that will shape your future.

You'll be part of an academically excellent community where your ideas drive your college experience.

Through academic instruction led by some of the world's top professors, you'll master the art of learning while being part of the university's most significant and meaningful endeavors.

Ultimately, you'll graduate with the tools and mindset you need to **make your life one amazing story.**

"The relationships that you make with people make you who you are."

– Nikhil D.

ASU student **Nikhil D.** sits down with his mentor, Professor **Ramon Velazquez**, to talk about how valuable it is for students to have a mentor. The two had their research on Alzheimer's disease published in a prestigious scientific journal. At ASU, you can connect with a professor, staff member, researcher, club leader, work colleague and others who can become your mentor during your college experience and beyond. See Nikhil and Professor Velazquez's discussion and other Golden Conversations about the authentic experiences that ASU students are having at asu.edu/golden.

As the nation’s most innovative university, ASU is pushing higher education boundaries

A new partnership between ASU and Dreamscape Immersive is turning students into explorers through virtual-reality-based experiences, enabling them to learn and discover in ways never before imagined. This education gamechanger combines the emotional power of Hollywood storytelling with a fully immersive VR experience where students can learn and explore by becoming fully embedded in a virtual environment.

Why Dreamscape Learn?
Research shows that students learn more when they actively explore concepts in the context of actual problems. And ASU students earned a median grade of “A” on Dreamscape Learn lab assignments — almost a full letter grade higher than the same class that doesn’t use Dreamscape Learn. That’s because the Dreamscape experience engages students and teaches them in an entirely new way — by enabling them to become part of the story.

ASU students are becoming a creative workforce of the future using Dreamscape Learn
Students from a range of academic backgrounds are coming together using Dreamscape Learn to create a time-traveling VR experience that addresses the complexities of climate change in the “Designing for Dreamscape” course.

“You’re not just learning the material, **you’re part of the material, part of the story, part of the exploration.**”

Alysha H.
Senior research assistant

“**I felt like a true scientist** when I was in there.”

Michelle V.
ASU student

Study with some of the world's most brilliant minds

ASU students learn alongside professors and researchers across the university as they explore innovative ideas and make groundbreaking discoveries. These gamechangers and academic mentors include Nobel laureates and other leaders in their fields, providing you access to some of the brightest minds in academia.

ASU Regents Professor **Lindy Elkins-Tanton**, who is leading a NASA deep-space mission, is also guiding her students to discover they have the ability and support to reach their potential.

With the mentorship and encouragement of Professor Elkins-Tanton, ASU student **Jessica M.** landed an internship at NASA, where she worked on a Mars rover.

ASU's faculty includes:

- Nobel laureates
- Pulitzer Prize winners
- Guggenheim Fellows
- American Academy of Arts and Sciences members
- National Academy of Sciences members
- National Academy of Engineering members
- MacArthur Fellows
- Fulbright U.S. Scholars
- National Endowment for the Humanities Fellows

Recent ASU graduates have earned:

- Fulbright Scholarship
- Rhodes Scholarship
- Churchill Scholarship
- Gates Cambridge Scholarship
- Goldwater Scholarship
- Marshall Scholarship
- Truman Scholarship

Former president of the Academy now heads film school

Cheryl Boone Isaacs, the former president of the Academy of Motion Picture Arts and Sciences, is the founding director of ASU's Sidney Poitier New American Film School.

National Geographic editor-in-chief joins ASU

Former National Geographic editor-in-chief Susan Goldberg has become part of ASU's journalism school and Global Futures Lab, and is expanding ASU's presence in Washington, D.C.

ASU professor leads the National Endowment for the Arts

Herberger Institute for Design and the Arts Professor Maria Rosario Jackson is the first African American and Mexican American to head the NEA.

Pulitzer Prize winner joins ASU

The 2021 Pulitzer Prize winner in Feature Writing, Mitchell Jackson, became an ASU professor and is also Esquire magazine's first Black columnist.

What does it mean to go to the No. 1 school for innovation, global impact and sustainability?

One of the things you'll hear a lot at ASU is that we're No. 1 in innovation. Our students joke about how often we talk about it. (They're not wrong — we put it on buildings, buses and billboards.) We also talk about being No. 1 in the U.S. for global impact and No.1 in the U.S. for sustainability.

These rankings are a big deal to us for two reasons: First, because the innovative things we're doing here truly have a positive impact on our world (we've highlighted a few of them here). And second, because it's the entire university community — including our students — who achieved these rankings, and we're proud of that.

As an ASU student, you can be an important part of (and maybe even lead) some of our most innovative, world-changing projects.

A commitment to reducing our carbon footprint

ASU is one of just two universities in the U.S. (and only 43 worldwide) to have achieved net zero greenhouse gas emissions. The net zero goal was reached six years ahead of our target.

A leader in the semiconductor revolution

Students are becoming prepared for the critical semiconductor industry, while ASU is helping to add more jobs and strengthen the economy by providing research, education, innovation and talent for the industry.

Untangling the origins of Alzheimer's

An ASU professor is making advancements in Alzheimer's disease research with new technology that looks at its origins on the molecular level.

Top 10 in the U.S. for patents

because of our rapid, entrepreneurial approach to solving global challenges.

Along with MIT, Stanford and Harvard — U.S. National Academy of Inventors and the Intellectual Property Owners Association, 2022

ASU students win \$1M XPRIZE

A team of students beat out nearly 1,000 worldwide entries to be named the winner of the XPRIZE competition for their design of a functional, comfortable mask to prevent the spread of COVID-19.

ASU student innovators win international competition

After beating out 182 teams, two first-year ASU students represented the U.S. on the world stage against 44 other countries, where they won for their idea for a revolutionary note-taking tool.

#1 in the U.S. for innovation

ASU ahead of MIT and Stanford — U.S. News & World Report 8 years, 2016–2023

#1 in the U.S. for sustainability

ASU ahead of UCLA and Yale — Sierra Club, 2021

#1 in the U.S. and #2 in the world for global impact

Ahead of MIT, New York University and Penn State — Times Higher Education, 2022

Professor's groundbreaking research cleans the air

A carbon capture system based on an ASU professor's innovative research is being funded by the Department of Energy. The mechanical trees catch and store carbon from the air at an estimated rate of 1,000 times that of an actual tree.

Learn to think creatively

Solving challenges in the world — or in your day-to-day life — calls for creative solutions to complex problems. Taking a class or majoring in programs such as art, design, digital culture, music, dance, film or theatre can help you hone your creative-thinking and problem-solving skills so you're better prepared for taking on challenges, big and small.

Philip Klucsarits, assistant professor in the Sidney Poitier New American Film School, gives his Cinematography I students a tour of the 280-seat screening auditorium with its state-of-the-art video editing and audio editing stations at the new Media and Immersive eXperience (MIX) Center at the Mesa City Center. More than 700 students are using the MIX facility, which houses Herberger Institute of Design and the Arts academic programs related to digital and sensory technology, experience design, film production and the Dreamscape Learn immersive media.

Collaborating with the people who are changing the world

ASU partners with extraordinary entrepreneurs, national heroes, distinguished thought leaders and intellectuals from varying ideologies to offer students the opportunity to connect and engage with different perspectives. Here are some notable names who have shared their expertise with ASU students.

02.

Customize your college journey

Your experience at ASU will be unlike anyone else's. You'll have access to opportunities and tools to design your college journey to your exact specifications. From where you live to what you study to what you do during your downtime, **you'll be in charge of it all.**

ASU treats students as design partners, giving them the tools to contribute to and even lead some of ASU's most important discoveries and projects. A prime example is the Student Pavilion — students helped design the building and now manage and operate it. **The Student Pavilion embodies the idea that students are central to the strength and success of ASU.**

Student organizations headquartered at the Student Pavilion:

Alliance of Indigenous People
Asian/Asian Pacific American Student Coalition
Black African Coalition
Coalition of International Students
El Concilio (Chicanx, Hispanic, Latinx) Coalition
Rainbow (LGBTQIA) Coalition
Undergraduate Student Government, Tempe campus
Women's Coalition

Learn your way

At ASU, you can customize how you learn, what you learn and the speed at which you learn. See all the ways you can make your academic experience uniquely your own.

Dual majors

You can earn two concurrent degrees in the same time it takes to earn one, expanding your knowledge and career options.

Accelerated bachelor's and master's degrees

You can opt to fast-track your studies by choosing either a 2.5- or 3-year path after admission into an accelerated program. Depending on your program, you can earn your bachelor's and master's degrees one year earlier by working toward both at the same time with an Accelerated Master's program.

Minors and certificates

By adding a minor or certificate, you'll become more well-rounded and boost your resume by taking classes outside your major.

Semester lengths

Choose a traditional 15-week semester or a more concentrated 7.5-week semester. Either way, the course content and credit you earn is the same.

Technology-enhanced learning

Active learning. Listen to class lectures online, then go to class to work on problem-solving in small groups.

Adaptive learning. An interactive style of learning that adjusts to your skill level in real time.

ASU online learning. Pursue your degree from anywhere as a full-time online student, or add an online course to your schedule in addition to your on-campus classes.

me3® major and career quiz. Not sure which major to choose? Start by taking the me3® quiz to see how your interests match with ASU degrees and career paths. Then design the future you want by charting an academic pathway to a degree program that leads to a successful career.

asu.edu/me3

Universal Learner Courses. Take first-year ASU college courses online while you're still in high school or before you enroll at ASU, and pay for credit only if you're happy with the grade. The course credit will count toward your ASU degree.

A one-size-fits-all experience doesn't really fit anybody

You might be wondering what the typical ASU student experience looks like. In reality, there isn't a typical experience. That's because you're a unique person, so your experience should be your own. Figuring out who you want to be and learning how to get there is a journey that takes time. **We offer tools, opportunities and support to help you design an experience that works for you.**

What do you want to study?

If you're not sure what to study — maybe because you have tons of interests or maybe because nothing's really calling to you — we have tools to help you narrow down the hundreds of degree options to find something that fits you. Tools such as me3®, an easy-to-use picture quiz that can help you figure out what careers might be good for you and the majors that can get you there.

me3® quiz
asu.edu/me3

Where do you want to live and learn?

ASU offers four campuses, each with its own size and feel, so you can find the learning environment that fits you best.

Campus fit quiz
asu.edu/myfit

People and programs

From exploratory degrees to academic advisors, ASU is here to help you find the major that fits you.

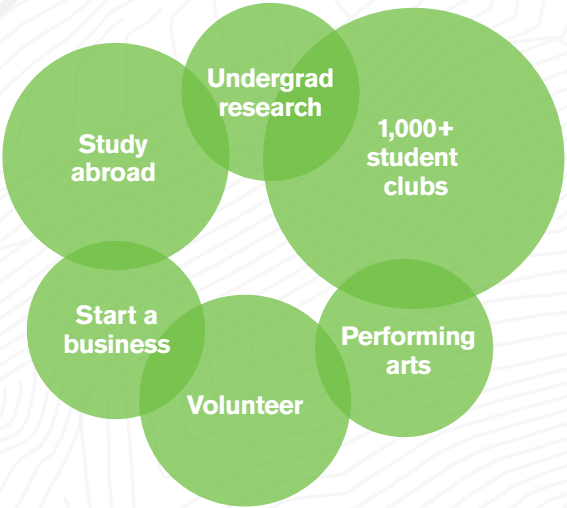

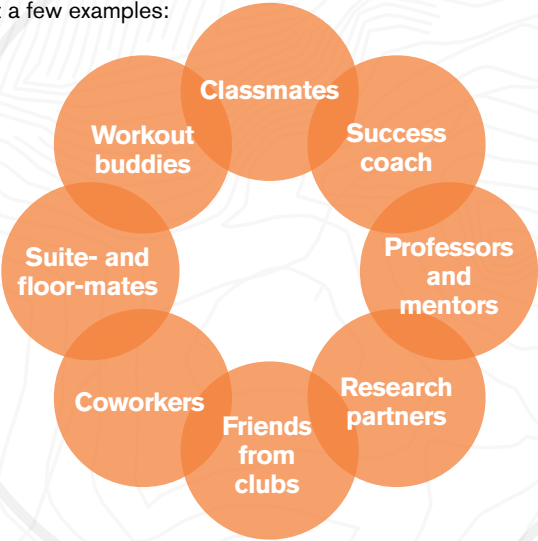

What kind of college student will you be?

A Deep Diver? A Trailblazer? Something else? To help you start figuring it out, we've designed this quiz to help you connect to opportunities that fit you.

Experience quiz
asu.edu/my-experience

Who do you want to connect with?

You'll meet tons of people in the ASU community — people who will become your friends and part of your network, and help you navigate obstacles and guide you when things get difficult. These are just a few examples:

What experiences do you want to have?

Picture your ASU experience as a buffet. Add to your plate the things you know you like, pass on the things you don't and maybe try something you've never tried before. Here are a few samplings:

Student clubs. Make instant friends by joining a student club — there are more than 1,000 to choose from.

Study abroad. Gain global awareness by spending between one week and one academic year studying in another country and learning from its culture.

Research. Work alongside a professor on a research project that's meaningful to you, and gain a faculty mentor at the same time.

Performing and fine arts. Be part of an arts performance or take fine arts classes to tap into your creative side — even if you aren't an arts major.

Intramurals. Join an intramural sports team at any skill level. Meet new people, get some exercise and have fun.

Entrepreneurship. Receive funding and mentorship to help get your startup or invention off the ground and into the market.

Volunteer. Tutoring, building homes, sorting food or assisting in a hospital are just a few of the many ways you can get involved through Changemaker Central.

Strengthen your academics with tutoring, mentoring and support

To thrive in college, you have to surround yourself with people who are committed to your success. ASU offers support services and resources designed to assist you throughout your experience at ASU.

Paula Guzman, an academic advisor from the Mary Lou Fulton Teachers College on the West campus, meets with a student to make sure they are taking the right classes to graduate on time.

Top 25 in the U.S. for first-year experiences

Ahead of Harvard, Notre Dame and Vanderbilt
— U.S. News & World Report, 2023

Mentorship

You can find a mentor at ASU by working closely with a professor on a research project or visiting your instructors during their faculty office hours.

Tutoring

ASU offers free tutoring and writing help so you can catch up or get ahead in your classes.

Academic advising

Your academic advisor helps ensure you're taking the right classes and are on the most efficient path to graduation.

eAdvisor™

Monitor your progress toward your degree with this online tool. You can see what classes you need to take and which semester to take them, and receive an alert if you fall off track.

Faculty office hours

All professors hold weekly office hours. This is your chance to talk to them about a concept you're struggling with in class, or to have a chat and build your network.

Peer coaching

Get support in your transition to college life by connecting with a peer mentor who can offer tips and advice as you settle in to your first year.

ASU Mobile App

Access your grades, schedule and financial aid information, and find ASU events, maps, library resources and more, all on your phone.

Health and wellness

ASU offers wellness resources such as the Sun Devil Fitness Complex, a huge gym with all the latest equipment. You'll also have access to comprehensive health care — including primary care, immunizations, lab services, acupuncture and women's health — and specialized LGBTQIA programs and initiatives.

Counseling 24/7/365

ASU students can receive free, unlimited counseling services day or night wherever they are in the world.

Family support

Your family is part of your college journey, too. ASU offers resources and information to keep them connected to the ASU community.

Immerse yourself in a community that lets you be you

Life in an ASU residence hall isn't dorm life, it's community life. You'll live on the same floor as other students in your academic program in a residential college, and immediately be part of a welcoming community committed to inclusion.

Residence halls include:

- A comfortable, completely furnished room.
- Utilities, cable and Wi-Fi.
- Full community kitchen.
- Group recreation space.
- Quiet study areas.
- Washers and dryers.

Why live on campus?

Living on campus means you're right next to everything: classes, professors, libraries, tutoring centers, dining halls, the fitness complex. You'll have access to a 24/7 community of support and feel more connected to university resources.

Eating well on campus

No matter what kind of food you're looking for — vegetarian, vegan, comfort food — you can find it at ASU. Dining halls offer delicious entrees, several meal plan options, convenient hours, access to nutritionists, and lots of space to hang out with friends or get some studying done while you eat.

Downtown Phoenix campus

Active and bustling — perfect for students who want to study in a professional, urban atmosphere.

Tempe campus

Lively with options for all interests — perfect for students looking for the all-around college experience.

Polytechnic campus

Quiet and serene — perfect for students who enjoy learning by doing.

West campus

Comfortable and welcoming — perfect for students who want a close-knit academic community.

Broadening our physical presence to meet you where you want to learn

ASU is continuously expanding to offer access to more students across Arizona and around the U.S.

ASU at Lake Havasu

Located in western Arizona, ASU at Lake Havasu is a smaller ASU location offering more than 20 degree programs. You'll study with a group of close friends in a small, scenic town next to sparkling Lake Havasu. asu.edu/asuhavasu

ASU in Mesa

With its opening in 2022, the Mesa City Center houses Herberger Institute for Design and the Arts programs related to digital and sensory technology, experiential design, gaming, media arts, and film production.

ASU in Yuma

You can earn an undergraduate ASU degree at Arizona Western College by completing your associate degree, then earning your ASU bachelor's degree at a reduced tuition rate on the AWC campus. AWC is also home to ASU Local-Yuma.

ASU in Tucson

ASU's Watts College of Public Service and Community Solutions offers undergraduate and graduate degrees and certificates in Tucson.

ASU in California

The ASU California Center in downtown Los Angeles features some of ASU's top-ranked and accredited academic programs and provides innovative transdisciplinary opportunities to students in California and from all ASU campuses, including the Cronkite News L.A. Bureau, The Sidney Poitier New American Film School and ASU Local-Los Angeles. california.asu.edu

ASU in Washington, D.C.

ASU's presence in Washington, D.C. means you'll have opportunities and experiences that can broaden your understanding of national and international issues through interactions with thought leaders and policy makers. You can also earn your degree through ASU Local at ASU's Washington Center. washingtondc.asu.edu

Innovating how and where you learn

There is no such thing as one-size-fits-all learning. While everyone should have access to an education, how that journey looks is different for each person. If learning on an ASU campus doesn't fit your plan, we offer several options to reach you in the way that works best.

ASU Online

Pursue an ASU degree 100% online from wherever you are in the world. Through ASU Online, you can choose from more than 130 ASU degree programs taught by the same instructors you would find on campus. asu.edu/asuonline

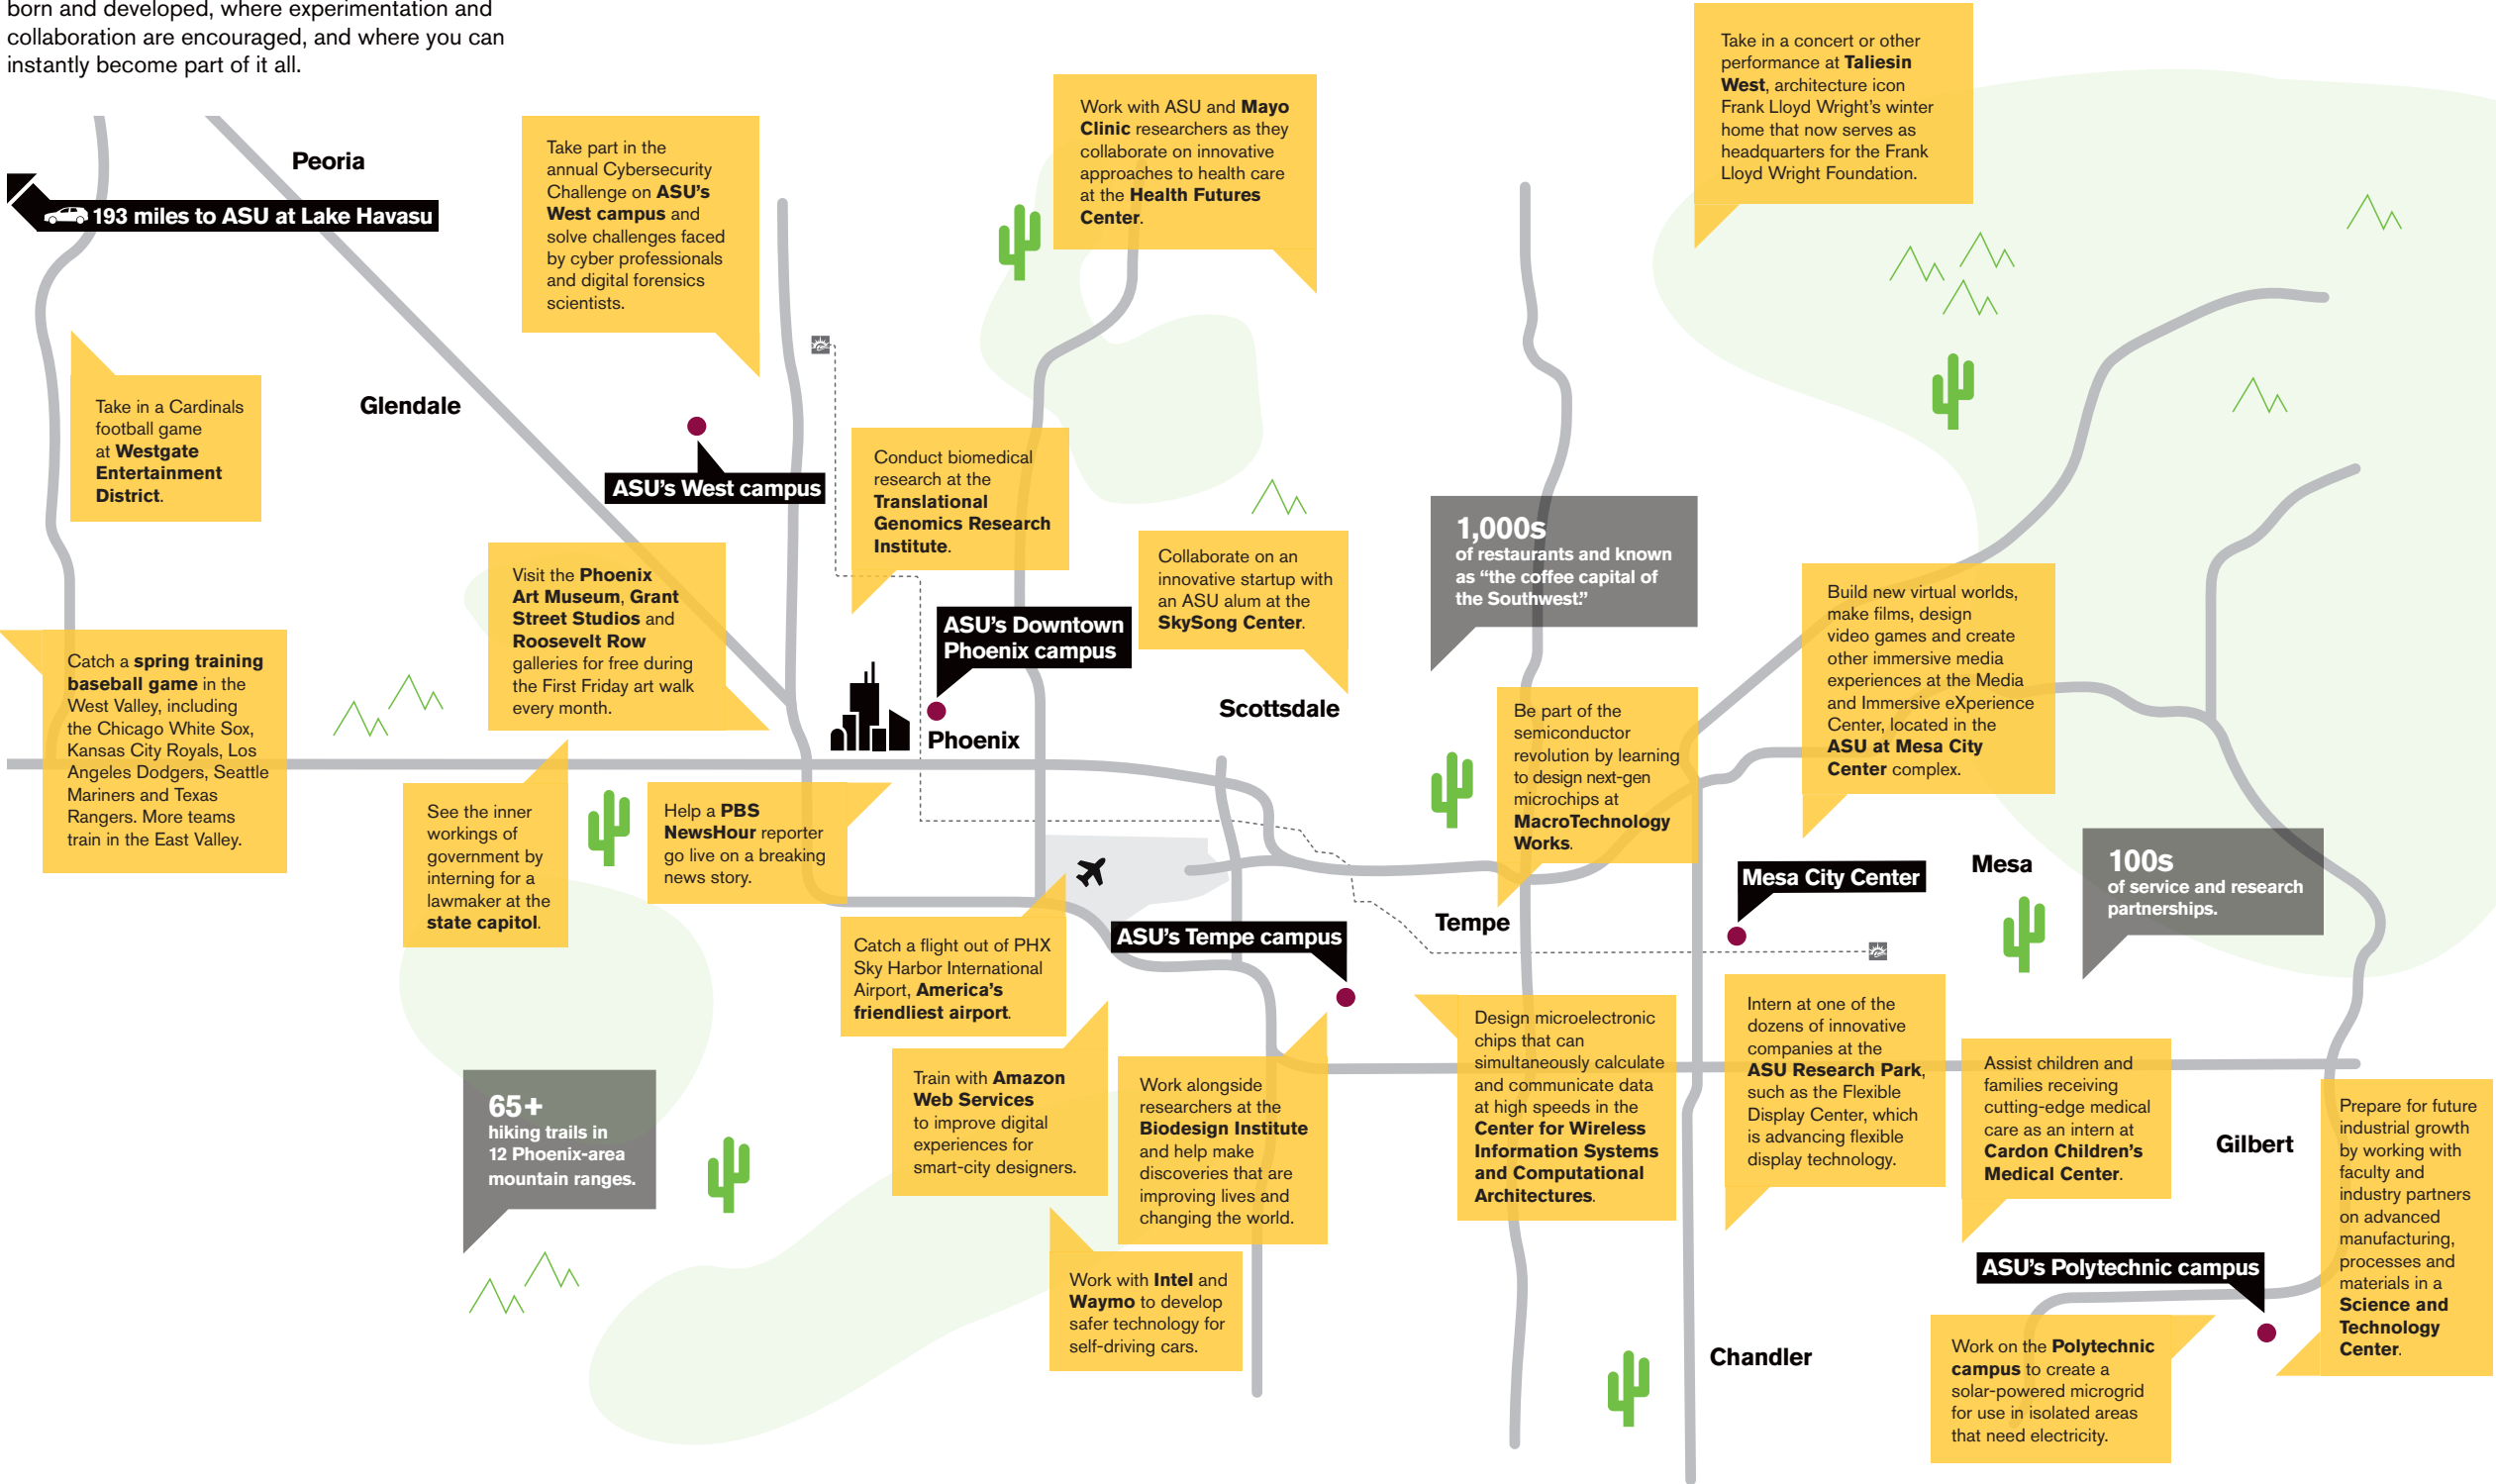

ASU Local

ASU Local combines in-person learning experiences and personalized support with online coursework to empower student success. It offers locations in Los Angeles; Washington, D.C.; and Yuma, Arizona. asu.edu/asulocal

Thrive in a future-focused city

When you combine an innovative spirit, incredible opportunities and a culture of community, you get the Phoenix area. It's a place where new ideas are born and developed, where experimentation and collaboration are encouraged, and where you can instantly become part of it all.

Live a life of impact

ASU is making a positive impact across the globe, helping to solve challenging problems and making the world a better place. As a student, you'll be part of it. And while you're leaving your mark, **ASU will be preparing you for a bright future.**

The university community is guided by the ASU charter principles: "ASU is a comprehensive public research university, measured not by whom it excludes, but by whom it includes and how they succeed; advancing research and discovery of public value; and assuming fundamental responsibility for the economic, social, cultural and overall health of the communities it serves." **These tenets are the foundation of what attracts students from around the world.**

Turn your interests into your career

The things that interest you throughout your life often signal the types of careers you'll excel at and enjoy. ASU can help you explore your interests more deeply and guide you on a path to realizing how the things that give you joy can be turned into meaningful careers.

The loss of her father from a misdiagnosis when she was a child inspired **Charity B.** to come to ASU from Zimbabwe to study molecular biology and biotechnology. After earning a prestigious Gates Cambridge Scholarship as an ASU student, Charity started her PhD program in pharmacology at the University of Cambridge. **Her goal is to prevent unnecessary deaths like her father's in her home country.**

Mark H. and a team of engineering students formed 33 Buckets, a water purification and distribution system for use in developing countries. By providing clean drinking water, they're **saving lives and helping more than 12,000 people in Bangladesh, Peru and the Dominican Republic.**

Colton S. graduated with his bachelor's and master's degrees from ASU's Walter Cronkite School of Journalism and Mass Communication. He's reported in newsrooms across the Southwest, and recently returned to Phoenix to become a morning newscast anchor for Arizona's Family. A member of the Navajo Nation, Colton is committed to highlighting issues that impact Indian Country.

Excel in your profession

When the job you'll have in the future may not even exist yet, how do you prepare for it? ASU Career and Professional Development Services offers tools, resources and guidance to help you get ready. You'll have access to ASU's robust network of industry partners and internship opportunities. Plus, the innovative career platform Handshake enables you to connect with employers, get information on upcoming career events, research companies and share your resume.

Legal studies students from the Downtown Phoenix campus head to a class at the Beus Center for Law and Society.

Live a fulfilling life

The things you'll learn, the community you'll build and the opportunities you'll explore at ASU will set you up for success not only in your career but in your life. Our goal is to prepare you to thrive in all aspects of your life, from your health to job satisfaction to community ties.

Happy. Successful. Fulfilled. Living the life they desire — that's what we want for each member of our student and alumni family.

Jesse S. is a recreational fisherman with a PhD in biology from ASU. Now, as an assistant professor in the College of Global Futures, **he's changing the future of commercial fishing across the globe.** Jesse and his students have developed an affordable solar-powered net that effectively saves protected sea life without compromising the profitability of fishing for communities that depend on the industry.

Shantel M. earned her bachelor's and master's degrees in justice studies from ASU's School of Social Transformation, and received the Aänit Prize from the Mandela Rhodes Foundation. **With the award, she will support an education project she founded in her home country of Zimbabwe** that offers affordable preschool in underserved neighborhoods and helps students' parents achieve financial sufficiency.

Trey L. graduated from ASU with three business degrees in global politics, law, and public service and public policy. After reviewing several job offers, he decided to accept a position with the U.S. Surgeon General where he is now the engagement chief of staff. He is a part of the office's efforts to address youth mental health, community and connection, as well as the general public health in the U.S.

When we say our students are co-creators in their education journey at ASU, we mean it. Every student photo in this book depicts actual ASU students or alumni participating in real ASU experiences. It's our goal to always tell a genuine, student-focused story about our university. We're proud of and grateful for the many students who shared their unique stories in this book, including:

Melina T. – Art (drawing) (bachelor's)
Connor L. – Art (painting) (bachelor's), English (writing, rhetorics and literacies) (bachelor's)
Katie D. – Art (intermedia) (bachelor's)
Nikhil D. – Innovation in society (bachelor's), neuroscience (bachelor's)
Michelle V. – Psychology (bachelor's)
Alireza B. – Computer engineering (electrical engineering) (doctorate)
Jessica M. – Earth and space exploration (exploration systems design) (bachelor's)
Christian L. – Computer science (bachelor's)
Olivia P. – Political science (bachelor's), women and gender studies (bachelor's)
Kaley M. – Speech and hearing science (bachelor's), family and human development (bachelor's)
Jianni L. – Earth and environmental studies (bachelor's), global studies (bachelor's) with a minor in sustainability
Madeline P. – Justice studies (bachelor's), global health (bachelor's)
David L. – Elementary education (bachelor's)
Felix H. – Molecular biosciences and biotechnology (bachelor's), violin performance (bachelor's)
Talyn G. – Journalism and mass communication (bachelor's) with a minor in communication
Erin H. – Mechanical engineering (bachelor's)
Amanda N. – Biomedical engineering (bachelor's)
Freddy R. – Chemical engineering (bachelor's)
Dhruv J. – Aerospace engineering (astronautics) (bachelor's)
Brionne D. – ASU Online
Birdie F. – Tourism development and management (bachelor's)
Katie C. – Journalism and mass communication (bachelor's)
Keenan T. – Political science (bachelor's)
Colton S. – Journalism and mass communication (bachelor's) with a minor in French, mass communication (master's)
Megan P. – Legal studies (master's)
Nicholas L. – Legal studies (master's)
Brittany B. – Legal studies (master's)
Kelsey J. – Legal studies (master's)
Charity B. – Molecular biosciences and biotechnology (bachelor's) with a minor in chemistry
Mark H. – Biomedical engineering (bachelor's), biomedical engineering (master's), education systems and design (doctorate)
Jesse S. – Biology (doctorate)
Shantel M. – Justice studies (bachelor's), justice studies (master's)
Trey L. – Business (global politics) (bachelor's), business (law) (bachelor's), business (public service and public policy) (bachelor's) with a certificate in cross-sector leadership
Gianelly E. – Business (business administration) (bachelor's) with a minor in Spanish

Gabriella P. – Business (business administration) (bachelor's) with a minor in technological entrepreneurship and management
Ava H. – Graphic information technology (bachelor's)

Students with the Programming and Activities Board on the Polytechnic campus pass by **San Tan Hall** on their way to a club meeting. The Polytechnic campus sits in a scenic desert landscape and offers students plenty of social spaces and a hands-on learning environment, including advanced labs with access to specialized tools, a crystal-clear lap pool and gym packed with the latest equipment, and a new residence hall with all the comforts and amenities.

Explore your ideas here.

If you're starting to picture yourself at ASU, we're here to help you with the next step. Take an Experience ASU tour, where one of our students will show you around and answer all your questions, whether you visit in person or virtually.

We can't wait for you to join us and to see what you'll do at ASU.
