

# The Arizona ASU State experience University

# You have a place at ASU

You might know exactly what you want your life to look like and have it planned out already. Or maybe you don't know what path to follow, but you know you want to do something amazing. Perhaps you're somewhere in between, kicking around a few ideas, not sure where you're going to settle.

Regardless of where you are on your journey of figuring out yourself and your life, you have a place at ASU — and we're ready to help.

Here you can start working toward your goals from day one, and we'll guide and support you throughout that journey. Or you can try your hand at all sorts of things to see what fits you best, and we'll guide and support you through that, too.

It boils down to this: **We measure ourselves as a university not by whom we exclude, but by whom we include.** That means we want you here — and if you meet admission criteria, you're in. **And we further measure ourselves by how you succeed.** That means you're not in it alone. We've got your back. We'll pick you up if you fall, point you in the right direction and cheer you on the entire way.

**You have a place at ASU, and we can't wait for you to take it.**

Jesus F., a media arts and sciences (extended reality technologies) graduate student, skates past two Starship delivery robots on his way to the Creativity Commons for his on-campus job. Jesus is an extended reality creative developer and a technical lead at ASU's Learning Futures Collaboratory, which is where he discovered his passion for VR development.

**“ASU helped  
me discover  
a career path  
that I didn’t  
even know  
I wanted to  
pursue.”**

**– Jesus F.**

# What does it mean to go to the No. 1 school for innovation, global impact and sustainability?

One of the things you'll hear a lot at ASU is that we're No. 1 in innovation. Our students joke about how often we talk about it. (They're not wrong — we put it on buildings, buses and billboards.) We also talk about being No. 1 in the U.S. for global impact and No. 1 in the U.S. for sustainability. These rankings are a big deal to us for two reasons: First, because the innovative things we're doing here truly have a positive impact on our world (we've highlighted a few of them here). And second, because it's the entire university community — including our students — who achieved these rankings, and we're proud of that. **As an ASU student, you can be an important part of (and maybe even lead) some of our most innovative, world-changing projects.**

## Pushing boundaries with Dreamscape Learn

Put away your textbook as we turn you into an explorer through the VR-based Dreamscape Learn. This education gamechanger combines the emotional power of Hollywood storytelling with a fully immersive virtual reality experience where you learn and explore by becoming fully embedded in a virtual environment.

# Innovation with impact

## Interior design student wins national competition for modern workplace design

Madeline M. beat more than 1,200 students to win the Steelcase NEXT Student Design Competition for her flexible modern workspace design.

## Removing unsafe chemicals from drinking water

ASU researchers have developed a way to remove two dangerous substances from drinking water that's more cost-effective and less polluting than other technologies.

### **A leader in the semiconductor revolution**

Students are becoming prepared for the critical semiconductor industry, while ASU is helping to add more jobs and strengthen the economy by providing research, education, innovation and talent for the industry.

### **First-of-its-kind X-ray instrument begins blazing trails**

ASU has opened a new chapter in X-ray science with a pioneering instrument that will help scientists see deeper into matter and potentially make advances in renewable energy, drug discovery, and computing and information science.

# #1

# innovation

**ASU ahead of MIT and Stanford**

**— U.S. News & World Report, 2016 – 2023**

# sustainability

**ASU ahead of Stanford and UC Berkeley**

**— Sustainability Tracking, Assessment & Rating System, 2023**

# global impact

**ASU ahead of MIT and Penn State**

**— Times Higher Education, 2020 – 2023**

### **Innovating with purpose**

ASU practices Principled Innovation, which considers the well-being of humanity before creating new innovations, putting character and values at the center of actions.

### **A commitment to reducing our carbon footprint**

ASU is one of just two universities in the U.S. (and only 17 worldwide) to have achieved net zero greenhouse gas emissions. The net zero goal was reached six years ahead of our target.

### **Professor's groundbreaking research cleans the air**

A carbon capture system based on an ASU professor's innovative research is being funded by the Department of Energy. The mechanical trees catch and store carbon from the air at an estimated rate of 1,000 times that of an actual tree.

### **ASU called on to lead water innovation initiative**

Arizona's governor is tapping ASU to find solutions to ensure Arizona's water supply will be secure well into the future.

## Learn from accessible top-tier professors

ASU professors are pretty impressive. We have an award-winning faculty (as in Nobel and Pulitzer Prize award-winning) who are leaders in their fields of study. They conduct research that society can actually use to make the world better, but most importantly, they're a student-centered faculty. They understand that their primary job is to teach and guide you, and help prepare you for success after graduation. **And there's a good chance that you may even click with one or two of them, gain a mentor and form a lifelong connection.**

### Take courses led by:

Nobel laureates  
Pulitzer Prize winners  
Guggenheim Fellows  
American Academy of Arts and Sciences members  
National Academy of Sciences members  
National Academy of Engineering members  
MacArthur Fellows  
Fulbright U.S. Scholars  
National Endowment for the Humanities Fellows

ASU researcher Zhihao Chen is preparing students for the growing vertical farming industry, which saves 90% of the water that would be used in conventional farming, but produces 10 times the crop that would be raised in the same space. Based on his research, Chen created a startup called Homer Farms, a cleantech company that uses food waste to help grow organic food.

A man with glasses and a woman are looking at a plant in a greenhouse. The man is wearing a black shirt and glasses, and the woman is wearing a brown shirt. They are both looking down at the plant with interest. The background is filled with green plants and bright light from the greenhouse.

Alejandra X. grew up in a small border town where water was scarce, putting the future of farming in doubt. So she came to ASU to help solve the problem. Here she began working with Zhihao Chen and learning about vertical farming. Now Alejandra has real hope for her community's future.

## Barrett, The Honors College

### A renowned honors experience

If you are an academically outstanding student looking for a place where your passions can be matched with exclusive opportunities, Barrett, The Honors College is the place for you. Barrett provides a living and learning community where honors students get individualized support while still having access to the vast resources of a large public university.

### Barrett by the numbers

**7,100+**  
students in Barrett.

**120+**  
total Barrett staff and faculty.

**350+**  
Barrett events per year.

**1,000+**  
total National Merit and National Recognition Program Scholars enrolled at ASU.

**2,100+**  
affiliated faculty.

**30%**  
of students are from out of state.

# A one-size-fits-all experience doesn't really fit anybody

You might be wondering what the typical ASU student experience looks like. In reality, there isn't a typical experience. That's because you're a unique person, so your experience should be your own. Figuring out who you want to be and learning how to get there is a journey that takes time. **We offer tools, opportunities and support to help you design an experience that works for you.**

## What do you want to study?

If you're not sure what to study — maybe because you have tons of interests or maybe because nothing's really calling to you — we have tools to help you narrow down the hundreds of degree options to find something that fits you. Tools such as me3®, an easy-to-use picture quiz that can help you figure out what careers might be good for you and the majors that can get you there.

**me3® quiz**  
[asu.edu/me3](https://asu.edu/me3)

**People and programs**  
From exploratory degrees to academic advisors, ASU is here to help you find the major that fits you.

## Where do you want to live and learn?

ASU offers four campuses in metro Phoenix, each with its own size and feel, so you can find the learning environment that fits you best.

**Campus fit quiz**  
[asu.edu/myfit](https://asu.edu/myfit)

## What kind of college student will you be?

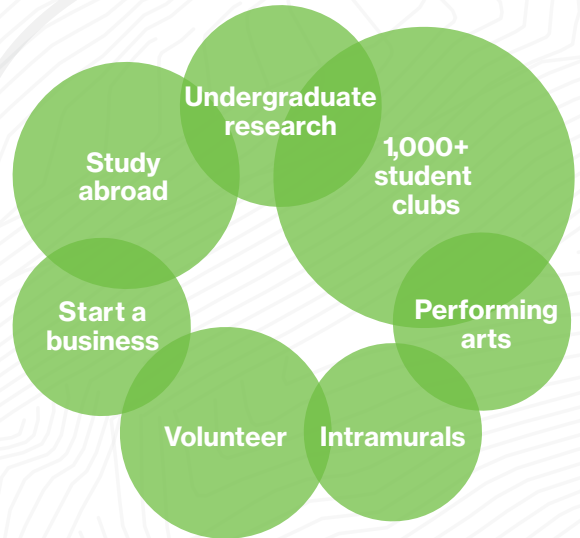

A Deep Diver? A Trailblazer? Something else? To help you start figuring it out, we've designed this quiz to help you connect to opportunities that fit you.

### Experience quiz

[asu.edu/  
my-experience](https://asu.edu/my-experience)

## Who do you want to connect with?

You'll meet lots of people in the ASU community — people who will become your friends and part of your network, and help you navigate obstacles and guide you when things get difficult. These are just a few examples.

## What experiences do you want to have?

Picture your ASU experience as a buffet. Add to your plate the things you know you like, pass on the things you don't and maybe try something you've never tried before. Here are a few samplings:

**Student clubs.** Make instant friends by joining a student club — there are more than 1,000 to choose from.

**Study abroad.** Gain global awareness by spending between one week and one academic year studying in another country and learning from its culture.

**Research.** Work alongside a professor on a meaningful research project no matter what your major, and gain a faculty mentor at the same time.

**Performing and fine arts.** Be part of an arts performance or take fine arts classes to tap into your creative side — even if you aren't an arts major.

**Intramurals.** Join an intramural sports team at any skill level. Meet new people, get some exercise and have fun.

**Entrepreneurship.** Receive funding and mentorship to help get your startup or invention off the ground and into the market.

**Volunteer.** Tutoring, building homes, sorting food or assisting in a hospital are just a few of the many ways you can get involved through Changemaker Central.

# Support throughout your college experience

You don't need us to tell you that going to college is a big deal. It's easily one of the most important events of your life, and it can feel a little scary. But like a lot of big events in your life, you won't be doing it alone. ASU offers an abundance of student support resources for you to succeed and thrive.

## Top 25 in the U.S. for first-year experiences

Ahead of Harvard, Notre Dame and Vanderbilt  
— U.S. News & World Report, 2023

### Support services include:

#### Tutoring

Get help understanding difficult course concepts.

# One university in many places

ASU doesn't define itself by boundaries. Our goal is to create experiences that are as different as the students who join us. Being one university in many places means more students have access to a college degree and you have more choices to learn in the way that works best for you.

Take the **ASU fit quiz** to find out which campus might be your style.

# Additional locations that meet you where you are

ASU continues to grow and ignores the idea of campus borders because we believe in meeting students where they need to be. Following are more ways that we meet you where you want to learn.

**ASU Local** combines in-person learning experiences and personalized support with online coursework to empower student success. It offers locations in Los Angeles and Long Beach, California; Washington, D.C.; West Hawai'i; and Lake Havasu City and Yuma, Arizona.

## The College Tour

Watch ASU's episode of "The College Tour" on Amazon Prime and YouTube to hear from current students on their experiences and get an in-depth guided tour of all four campuses.

[asu.edu/college-tour](https://asu.edu/college-tour)

## Specialized learning locations

Other learning locations in the metro Phoenix area offer specialized programs near ASU campuses. Students have a home campus but can take classes at locations such as ASU at Mesa City Center or the Health Futures Center, as well as on other ASU campuses.

### ASU at Mesa City Center

Mesa, AZ

- ASU at Mesa City Center houses academic programs related to digital and sensory technology, entrepreneurial support, experience design, film production, and immersive media. The facility is fully embedded in Mesa, so student artists and designers thrive within their community. Spaces like the MIX Center enable collaborative and innovative efforts to create immersive media experiences.

### Health Futures Center

Phoenix, AZ

- The Health Futures Center, a collaboration between ASU and Mayo Clinic, offers students the chance to participate in world-class medical research and innovation, preparing them to transform the future of health care. The center features a med-tech innovation accelerator, biomedical engineering and informatics research labs, and a future-focused education zone.

## National and global locations

ASU's footprint goes far beyond state borders, offering experiences and bold new learning spaces across the U.S. and around the world. That's why ASU is the New American University — a future-focused model of higher education that values inclusion and meets students where they are.

### ASU California Centers

Los Angeles, CA

- Based in downtown LA, the ASU California Centers offer degrees including fashion, film, journalism and other creative disciplines. One of these centers is the Los Angeles home to ASU FIDM, our state-of-the-art fashion school. ASU Local — Los Angeles also has a presence here.

- Fashion, film and 140+ programs through ASU Online

### Washington, D.C.

District of Columbia

- ASU's location in the capital of the U.S. offers ASU Local and the Barrett and O'Connor Washington Center, which houses the journalism school's Washington Bureau, the law college's Law and Security program, the Capital Scholars program, and the McCain Institute's Global Leaders program.

- 140+ online degree programs through ASU Local

# Other Arizona locations

Arizona State University truly is a “state” university, offering locations all around Arizona.

## ASU at Lake Havasu

Lake Havasu City, AZ

- Set in a picturesque small town near a beautiful, sparkling lake, ASU at Lake Havasu is a smaller, laid back, neighborly location. It offers both on-campus learning and online degree programs with supportive success coaches through ASU Local.
- [havasu.asu.edu/degrees](https://havasu.asu.edu/degrees)
- 20 on-campus majors and 140+ online degree programs through ASU Local
- 

## Yuma

Yuma, AZ

- ASU Local's Yuma location offers students a hybrid learning experience where they take courses online, while regularly interacting and working in person with other students in their program.
- 140+ online degree programs through ASU Local
- 

## Tucson

Tucson, AZ

- ASU's School of Social Work offers a location in Tucson where students can earn bachelor's or master's degrees, as well as complete an internship with a social service agency.
- Bachelor's and master's degrees in social work
- 

## Long Beach, CA

Long Beach City College

- ASU Local – Long Beach, located on the Long Beach City College campus, offers student interactions and access to success coaching while taking online courses. It serves as a hub for students to engage in internships, seminars and workshops, and deepens the ties that ASU has with California.
- 140+ online degree programs through ASU Local
- 

## West Hawai'i

O'ahu, HI

- ASU Local – West Hawai'i brings together a community of students, coaches and success staff to the middle of the Pacific Ocean, offering a close-knit network and many top ASU programs.
- 140+ online degree programs through ASU Local
- 

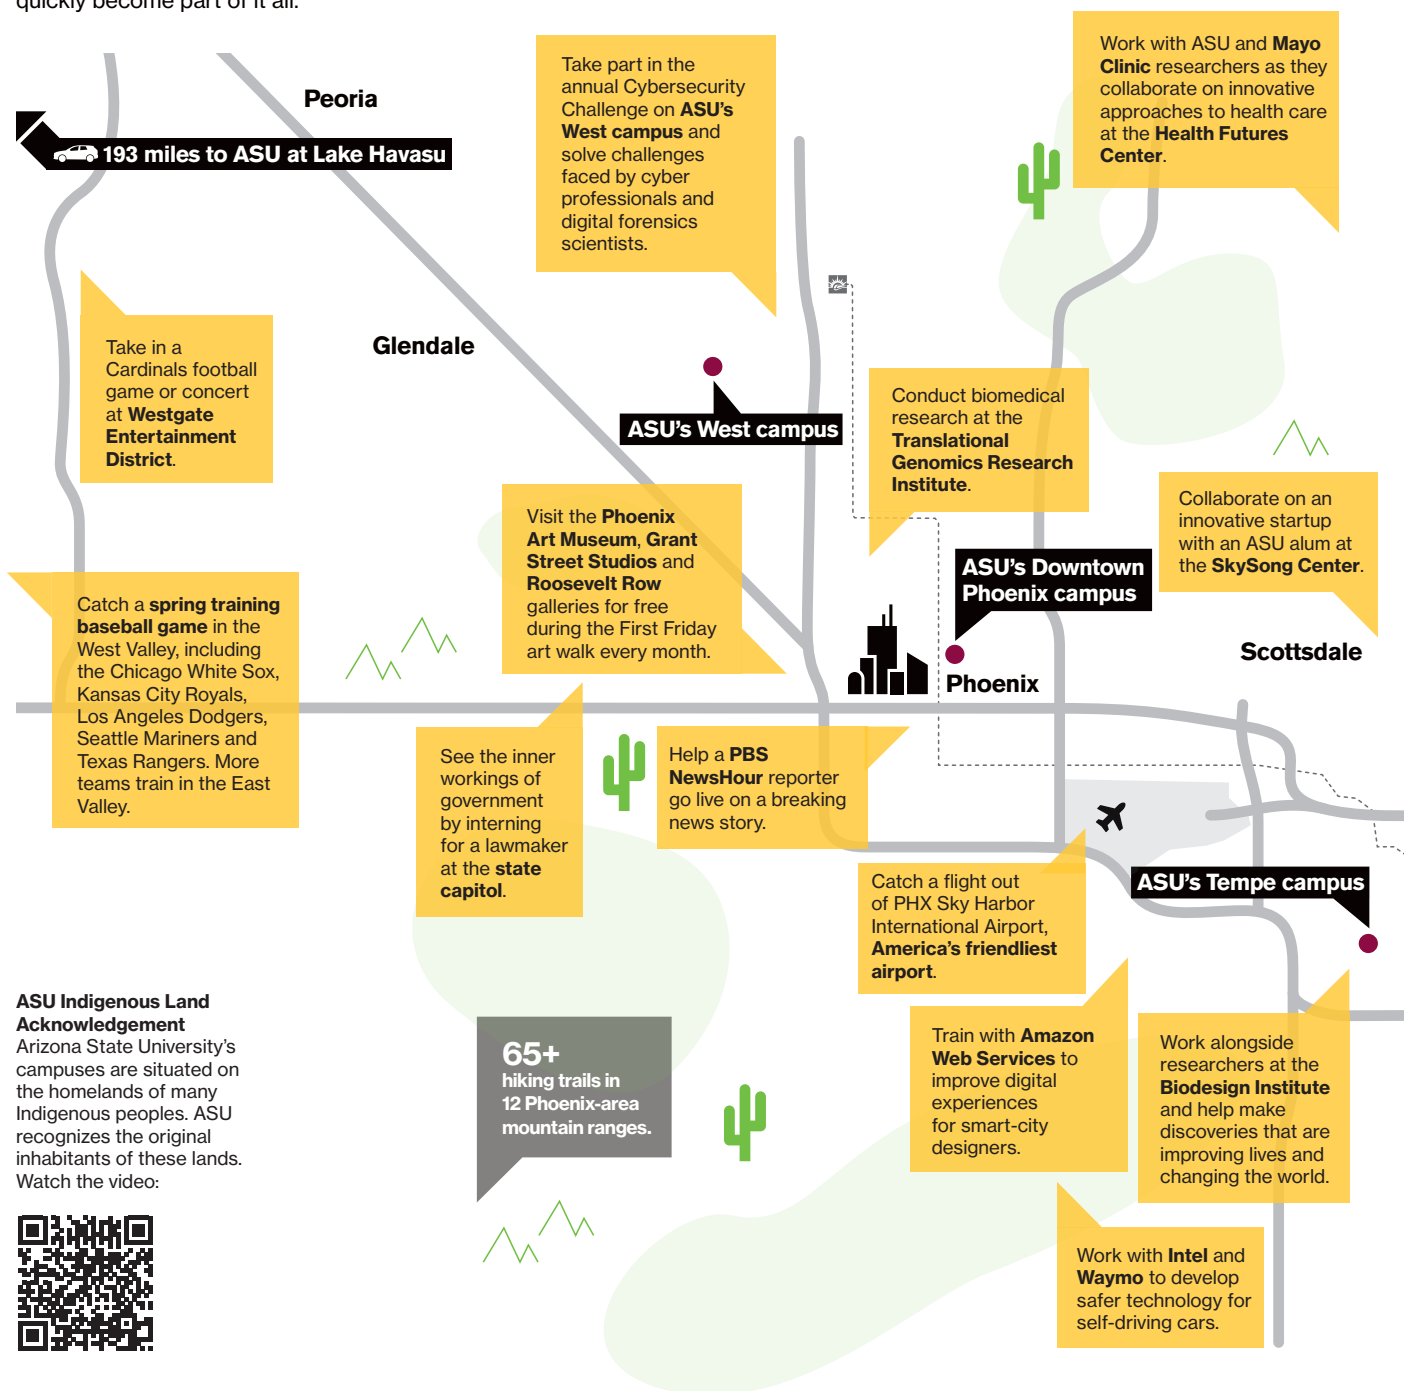

## Global

[global.asu.edu](https://global.asu.edu)

- ASU's presence is felt all over the world through study abroad trips for students who spend time learning in another country, partnerships with universities worldwide and global projects that are helping communities in foreign lands to thrive.

# Thrive in a future-focused city

When you combine an innovative spirit, incredible opportunities and a culture of community, you get the Phoenix area. It's a place where new ideas are born and developed, where experimentation and collaboration are encouraged, and where you can quickly become part of it all.

**#5

## Live a fulfilling life

You'll learn so much during your college experience, but ultimately the most important thing you'll learn is who you are becoming. By the time you walk the stage to collect your diploma, you'll have grown and changed a lot from that first day of college. The knowledge of who you are becoming, along with the skills you gain, the opportunities you embrace and the community you build will all come together at the end to launch you on a trajectory to the kind of life you've always imagined — or toward a life you never dreamed of but one you can't imagine living any other way.

## Top 10 in the world for employer-student connections

due to a robust network of industry partners, abundant internship opportunities and an innovative career platform to connect you with employers.
