The ASU experience

Learn to thrive.

Arizona State University
ASU is measured not by whom it excludes, but by whom it includes and how they succeed.

– Excerpt from ASU’s Charter
Let the adventure begin

Picture your future. Do you see yourself developing a life-saving vaccine? Producing content for a major media outlet? Maybe you'll be launching your own business or performing on stage. Whatever your vision of success looks like, you're already on your way — and we’re here to help you write the next chapter in your journey.

At Arizona State University, you’ll be part of a new kind of university, where traditional thinking is re-examined and innovative ideas thrive. Where academics challenge you and drive you to be your best. Where you can collaborate in some of the university’s most significant and meaningful endeavors. Where you’ll discover more about yourself than you ever knew.

And in the end, you'll graduate with the tools to make your life one amazing story.
Out-of-this-world opportunities

ASU students are working with Professor Lindy Elkins-Tanton and her team of researchers on a NASA deep-space mission to the asteroid Psyche in an effort to learn how planets are born. Inspired by Elkins-Tanton’s work, student Jessica M. applied for and received an internship with NASA, where she worked on a Mars rover. Like Jessica, students at ASU have opportunities to be part of and even lead some of the university’s most important projects and discoveries — in outer space and down here on Earth.

A lively city in a beautiful state

The diverse community helps drive Phoenix's emerging music and arts scene, innovative startups, international restaurants and overall spirit of inclusivity. And if you’re looking for something to do, you can’t do much better than Phoenix and the entire state of Arizona.

Getting to Phoenix is easy

With two international airports and highways leading here from every direction, you’ll easily get to your ASU campus, no matter which one you’re on.
See
Attend one of the many local music festivals, watch your favorite performer or discover up-and-coming artists.

Access to: professional sports, art walks, Phoenix Fan Fusion, Phoenix Art and Musical Instrument museums, and eclectic architecture

Do
Check out one of the nearby lakes just outside of town, or try paddleboarding at Tempe Town Lake.

Access to: 65+ hiking trails, Zoo Lights, Desert Botanical Garden and Schnepf Farms Peach Festival

Taste
Offering outstanding food choices from all over the world, Phoenix is most famous for its Mexican food — you won’t find an average taco here.

Access to: coffee shops, international cuisine, and vegan and vegetarian restaurants

Explore
Arizona’s abundant sunshine is the perfect backdrop for any outdoor lover or those simply looking to take the scenic route.

Access to: the Grand Canyon, 18 national monuments (more than any other U.S. state) and major ski resorts only a couple hours from Phoenix

Picture yourself here
People from around the world call ASU home — students of different religions, political stripes, sexual orientations, gender identities and income levels find a welcoming community here. Having access to people who see the world differently exposes you to new ideas and prepares you to thrive in today’s interconnected world.

“Education is a way for us to further ourselves and build a future that we love. My internship at Ford helped me get my foot in the door and gave me insight that this was the role and company I wanted to continue my career with post-graduation. I’ve accepted a position at Ford Motor Company in marketing.”

Marketing (BS), Spanish (BA), applied business data analytics (certificate)

“I fell in love with a lot of things that ASU provided for me, things I didn’t think I would have the opportunity to do. Because of that, I was able to do research that I will also be doing in the future. I’m going to be moving to Bethesda, Maryland to work at the National Institutes of Health, working in a lab with a neurosurgeon.”

**Nolan Vale**
Molecular biosciences and biotechnology (BS), psychology (minor)
