Welcome to your new home

At ASU, first-year students, also known as freshmen, live in a residence hall on the campus of their major. ASU’s housing options come with many benefits, including:

• Nearby access to classes, professors, libraries and tutoring services.
• Nearby access to the fitness complex and dining halls.
• Furnished rooms with Wi-Fi and cable, and nearby laundry facilities.
• Common recreation and study areas, and community kitchens.
• Special programming and events for residence hall community members.

Live with your classmates

If you are a first-year student, you will live in a residential college on the same floor as others in your academic program, meaning that from the start of your college experience, you’ll have built-in study partners and friends.

Fact: On average, students who live on campus do better academically and are more likely to graduate than students who live off campus.

Note: Housing for upper-division and graduate students is not based on academic programs, and is limited on each campus and not guaranteed.
